🧠 SKILLS

- Full stack web developer
- Database Architecture
- database Management
- Front end developer
- Back end developer
- Database development
- Next js
- Nodejs
- React
- MongoDB
- JavaScript
- REST APIs
- Expressjs

🎓 EDUCATION

BSc/mechanical engineering

University of Ilorin

11/2023 | Ilorin, Nigeria

👤 PROFILE

I'm a Full-stack developer experienced in building real-world web applications including real-time platforms, marketplace systems, and e-commerce products. Skilled in modern JavaScript technologies such as Next.js, Node.js, and React, with experience implementing authentication, payment flows, real-time communication, and scalable backend APIs. Passionate about building reliable products with clean architecture and great user experience.

📁 PROJECTS

HairXquisite

10/2022 – 01/2023

Developed a full e-commerce platform with product listing and cart system.

- Implemented checkout flow and payment integration.
- Built responsive UI with clean product browsing experience.
- Created backend APIs for product management and orders.

ServiceXpress

03/2023 – 07/2023

Built a service marketplace connecting service providers with service seekers.

- Implemented real-time chat between users using WebSocket technology.
- Integrated payment gateway with escrow-style payment handling.
- Developed in-app wallet balance system to track user payments.
- Implemented location-based service discovery and matching.
- Added email notifications and real-time alerts for service activity.

TiCp

03/2026 – Present

Building a crypto portfolio tracking dashboard with live market data.

- Implementing Web3 wallet creation and wallet import functionality.
- Adding watch-only wallet tracking for monitoring multiple addresses.
- Developing candlestick charts, portfolio analytics, and alert system.
- Implementing transaction tracking and token risk warnings.

ORGANISATIONS

Coast research technology

Intern

09/2022 – 03/2023 | Ibadan Nigeria

Assisted in software development and technical tasks within the research environment.

- Supported development and testing of web-based tools and systems.
- Collaborated with team members to improve application functionality and performance.
- Gained practical experience working with modern development workflows and tools.
